This is a decision on the renewed petition, filed June 11, 2003 requesting the Withdrawal of the Holding of Abandonment of the above-identified application. The original petition was dismissed May 29, 2003. This application was held abandoned for failure to respond to the Office communication mailed May 20, 2002 (Paper No. 18). A Notice of Abandonment was mailed on January 10, 2003 (Paper No. 19). A duplicate copy of the renewed petition was transmitted to the Office on December 17, 2003, but since that time, the original paper from June 11, 2003 has been matched to the application. Applicant is advised to check the captions for future filings with the Office. The renewed petition and its duplicate had the wrong serial number and incorrect art unit. The current art unit is 2112. The Office apologizes for the delay in responding to applicant's renewed petition.

In support of the petition, applicants' representative supplements earlier statements and clarifies matters that were unclear due to typographical errors. The renewed request is accompanied by a corrected declaration of Mr. Neerings.

The evidence submitted has overcome the presumption of receipt in accordance with the guidelines set forth in MPEP § 711.03(c).

The petition is **GRANTED**. The holding of abandonment is withdrawn.

The application file will be forwarded to the Technology Center support staff and thereafter to the examiner of record. A new Office communication will be forthcoming. Telephone inquiries should be directed to the undersigned at (703) 308-0269.
